Brian FLYNN

Head of Network Operations Services
Eurocontrol
Brussels, Belgium

www.eurocontrol.int

brian.flynn@eurocontrol.int

Brian Flynn began his work experience as Former Air Traffic Controller in Ireland. Then he joined Eurocontrol first as Simulation Expert, then as Head of CFMU Flight Plan Processing Unit. After he became Assistant Head of CFMU Network Operations Division. Since the creation of Directorate Network Management, he is working as Head of Network Operations Services.

Brian Flynn has a long career in Eurocontrol starting with model based simulations of airspace and route reorganizations, followed by prototyping of early ATFM systems.

He was an active member of the project team that set up the Central Flow Management Unit (now Directorate Network Management), staffing, hardware and software systems, buildings.

He has a strong and extensive operations management experience in all domains of ATFCM (flight planning, airspace data and flow and capacity management).
